I have joined AWS Devops training in Vcube Software Solutions This is really the best institute for Devops course. All training is practically based training on real time projects. I am really happy about doing the course from Vcube software Solutions .The placement policy is also very helpful for freshers. Babji sir was my instructor and he is a great supporter. Thank you so much sir

taken **AWS** Devops training at V Cube from the faculty (Babji).

Faculty is very friendly and patiently explain all the queries during classes, also they suggest us real time scenarios to find the job opportunities.

I would like to recommend V Cube if you are looking for Devops trainings.

VCUBE SOFTWARE SOLUTIONS is the best training institute to learn **AWS** Devops, I'm from batch 43
Trainer Babji sir teaching is extremely good.

He teaches from scratch and also he deliver the concept in a easy way so that everyone can understand simply.

He never hesitate to clear our douts and to repeat the concept.

Special thanks to "Babji Sir" and vcube team!

The **AWS** training provided by Babji Sir at V CUBE Software Solutions was excellent. His engaging teaching style made difficult **AWS** concepts simple to comprehend. The course was simple to follow because it included real-world examples and an approachable style. I wholeheartedly advise anyone wishing to improve their **AWS** skills to take Babji Sir's course.

I have joined in v cube after searching many institutes, I had taken my training in **aws** along with devops, my tuiter was mr babji and it was an online training, his way of explaining was amazing, he had covered all the topics whatever he had promised to cover, he is a brilliant teacher with a lots of patience to explain everything from a scratch. And he had cleared my questions during the class as well as after the class. Whenever I had a doubt I just msg him and he is always there to clear my doubts I will definitely recommend everyone those who are looking for online coaching 😊

great institute to learn **AWS** and DevOps...mainly talk about "Babji sir".

"Babji Sir is a highly experienced and knowledgeable instructor in **AWS** and DevOps. He has a vast experience in cloud computing, and his practical approach towards teaching has helped many students understand complex concepts with ease. His classes are said to be engaging, and he has a great ability to simplify complex topics, which makes it easy for beginners to understand.

Babji Sir's teaching style is said to be hands-on and practical, which allows students to learn by doing. He uses real-world examples and scenarios to help students understand how to apply the knowledge they've learned in real-life situations. He is also known to be patient and supportive, creating a positive and encouraging learning environment for his students.

And also he is a great mentor. 😊

I would strongly recommend to join in VCube, if you really want to learn **AWS** course without any technical knowledge vcube is the best place to join. Comparing to other institutes, the concepts covered here are really helpful in real time and which is very easy to understand. The instructor (Mr Babji)sir is really having vast knowledge on **AWS**.The way he shares his knowledge is very good, and we can easily approach him for any kind of queries or doubts without any hesitation. VCube is really helpful for career growth and to increase our technical knowledge and to get Good Job.

After 3 years break of my education i reached out vcube for **AWS** training to get the job as devops engineer, They helped to understand the course structure and job opportunities after **AWS** training. After few days of conversations they told me to attend demo calss with Babji sir...after i attend the demo classes i decided to continue the course. He(Babji sir) helped me to understand content of all topics very easily and he is one of the best trainer that i've had. I will definitely recommend vcube and Babji sir is best for **AWS** training.
